

Reinaldo Viccini

Quality & Engineering Leader · Systems Builder · 20+ Years Leading Teams, P&L and Technology
· AI Systems Design · AI-Augmented QA · Playwright/TypeScript

rvicinip@gmail.com · +57 315 351 6152 · Colombia — remote · [linkedin.com/in/reinaldo-viccini](https://www.linkedin.com/in/reinaldo-viccini)

PROFILE

I build quality systems — and I build them as a leader, not a beginner. My path runs through three careers: systems engineer; 20+ years as CEO/GM, where I ran a US\$20M budget, led 350 direct + 150 indirect people, grew a company from US\$2M to US\$20M, and embedded engineering and QA into joint ventures with Ford, Iveco, Mercedes-Benz and GM; and since 2020, a deliberate reinvention into technology — proved, not promised — seeded by the coalition I founded to help 100+ displaced entrepreneurs rebuild, under real personal risk. Today I own a multi-tenant platform's QA function end to end and built the AI-augmented pipeline (AI as a directed tool, not a crutch) that turns a Jira ticket into analysis, test cases and a Playwright spec in minutes — recovering reproducible steps for ~80% of ~1,000 defects, always behind a human review gate. The five years in QA are my most recent proof, not my ceiling: management and technical leadership are already done — for a long time, and well.

LEADERSHIP AT SCALE

US\$20M

Budget managed with my team

\$2M → \$20M

Company growth I led

350 + 150

Direct + indirect reports

Ford · Iveco · Mercedes-Benz · GM

Joint ventures

CORE COMPETENCIES

AI-Augmented QA Automation

Playwright · TypeScript/JS · modular frameworks · test factories

Observability-Driven QA

log forensics · APM telemetry · incident reconstruction · Elastic/Kibana

Quality & Team Leadership

TQM · APQP · 5S · lean verification · 20+ yrs leading multidisciplinary teams

Team Building

built and led teams in a company, joint ventures, a Rotary chapter and a community coalition

Agentic Systems Engineering

memory/knowledge architecture · orchestration · verification gates · multi-runtime

Regression Architecture & Governance

quality matrix · gates (PROMOTE/HOLD/ROLLBACK) · selective regression

International Business

cross-border partnerships & deals — China, the Dominican Republic, North America

Test Strategy & Coverage

POM-first · smoke & regression suites · release sign-off · ISO/IEC 25010

EXPERIENCE

CAREER 3 · QA ENGINEERING (2020 – PRESENT)

Quality Engineering Lead / QA Architect (Sole Owner of Platform QA — Strategy & AI Pipeline)

May 2022 – Present (continuous, full-time) · USA · Remote

Newton Vision Corp · Revalize Software

- **Own the platform QA function end to end** — strategy, standards, and release gates — as sole architect across 48 tenants (global industrial manufacturers including Grundfos, Sulzer, Franklin Electric, Wilo and Wilfley) and 8 environments (21 with full Playwright automation — 150+ specs, 115+ page-object models).
- **5-dimensional quality strategy** (functional, performance, security, scalability, infra/config) mapped to ISO/IEC 25010; selective regression by the quality matrix rather than full re-runs.
- **AI-driven pipeline (7 stages)**: turns a Jira ticket into analysis, test cases, and a Playwright spec in minutes — cutting per-ticket cycle time ~55%.
- **AI + human governance**: test factory at 75–85% precision behind a mandatory review gate; zero auto-committed tests; anti-hallucination validation.
- **Compounding memory**: raised reproducible-step coverage from 1.1% to ~80% across ~1,000 tickets; each finding writes back to a reusable knowledge base.
- **Telemetry forensics**: reconstructed cross-tenant defects from raw logs (Elastic/Kibana); classified 436 error signatures; verified deploy via git ancestry + live version banner.

Independent Associate — Frontend Development & QA

Jan 2021 – 2023 · Medellín, Colombia (Remote)

VITT S.A.S.

- Delivered a 10-module React/JavaScript (ES6) frontend for a private company; Node.js, Express, GraphQL, React Query, WordPress/MySQL.
- Client engagement, delivered through VITT — QA Lead for the BASC application at POSDATA: defined QA policies and test-case design, verified acceptance criteria, and coordinated a 3-person team on a new development (~300 new bugs per sprint).

Software Quality Assurance Engineer — Project KOQUI SEQUAL

Mar 2020 – Dec 2020 · Medellín, Colombia · Remote

- First QA role — completed a basic QA course and was introduced to Scrum/sprint methodology; manual-tested a new development solo, finding ~50 bugs per sprint.
- Later ran Python + Selenium automation pilots; wrote test plans and user stories under SCRUM/Kanban; high bug-find rate organization-wide.

CAREER 2 · BUSINESS LEADERSHIP (1992 – 2020)

General Manager / CEO · Marketing & Sales · Innovation Leader

Jan 1999 – Feb 2020 · Ureña, Venezuela · 21 yrs

Carrocerías Andinas C.A.

- Ran a US\$20M budget and 350 direct + 150 indirect reports; grew the company from US\$2M to US\$20M in seven years and embedded engineering + QA into joint ventures with Ford, Iveco, Mercedes-Benz, and General Motors.
- Built international partnerships hands-on — sourced partners and suppliers abroad, including a month-long solo sourcing trip to China.
- Implemented an ERP (Exact Globe) and industry QA/manufacturing best practices; led IoT fleet management and sensor/PLC automation on the production line.

- Won a US\$16M bus order (Dominican Republic); became #1 supplier of the National Transport Fund; modernized facilities with robotics + CAD/CAM.

CEO / Founder

Aug 2015 – Mar 2020 · Cúcuta, Colombia

Interext Ltda

- Leather manufacturing & retail startup — digital marketing, CRM (VTiger), digital printing.

CEO / Founder

Jun 1992 – Jul 2000 · Bogotá, Colombia

Comercial Carrocera Ltda.

- Imported and sold minibuses (~US\$7M in two years); operated a bus fleet in Bogotá for three years.

CEO / Founder

Jul 1992 – Dec 1996 · Ureña, Venezuela

Distribuidora Internacional del Transporte

- Exported CBU minibuses and vans; built a distributor network selling several hundred units (1993–1995).

CAREER 1 · SYSTEMS & PROGRAMMING (1984 – 1992)

Management Information Systems Manager & Lead Developer

Aug 1988 – May 1992 · Cúcuta, Colombia

CORPES Centro Oriente

- Implemented a six-state computing network (SCO UNIX + dumb terminals); built a public project-tracking system (FoxBase Plus).
- Earned the British Council (Chevening) scholarship for postgraduate study at the LSE.

MIS Manager / Lead Programmer

Aug 1986 – Aug 1988 · Ureña, Venezuela

Carrocerías Andinas C.A.

- Developed the company ERP (SCO XENIX, dBASE II / FoxBase II, VT100 terminals); optimized inventory control; built an MRP for the production line.

Programmer — Quality Control Department

Jul 1985 – Jan 1986 · Medellín, Colombia

Coltejer S.A.

- Developed a data-capture/analysis system for ~100 ring-spinning and stitching machines.

Project Intern — IT Department

Jul 1984 – Jan 1985

ExxonMobil

- Mainframe (Mark IV, RPG II, Mantis); built a termination-fees system for expatriates.

EDUCATION

MSc (Econ) — Analysis, Design & Management of Information Systems

The London School of Economics and Political Science (LSE)

1990 – 1991

Ingeniero de Sistemas (Systems Engineering)

Universidad EAFIT

1981 – 1986

Bachiller — Best Student, Class of 1980

Seminario Diocesano · AFS exchange student (New Castle Chrysler High, 1979–1980)

1974 – 1980

HONORS & AWARDS

Chevening / British Council Scholarship

1989 · funded postgraduate study at the LSE

ICFES 377 / 400

Top 1% national test scores · 2nd statewide

Best Student, Class of 1980

Seminario Diocesano

SKILLS & ENDORSEMENTS

LinkedIn assessments passed: JavaScript · Python · React.js

Technical: Playwright · TypeScript · JavaScript · Python · Node.js · Git · JIRA · Azure DevOps · UiPath (RPA) · React

Top endorsements: Strategic Planning (17) · Business Strategy (16) · Negotiation (15) · Entrepreneurship (12) · Sales (10) · Manufacturing (10) · Customer Service (10) · Project Management (10) · Team Leadership (9)

PUBLISHED WRITING & THOUGHT LEADERSHIP

Medium (2023): "From CEO to IT Trainee", "The Ripple Effect of Kindness", and the "Adventures of a Second Career in IT" series — on career reinvention, resilience, and mentorship.

LinkedIn: "AGENTS.md — the brains of my system" (AI/agent systems); essays on leadership, work ethic, and remote-first careers.

COMMUNITY & BOARD LEADERSHIP

Founding Executive Director — Corporación Recrecimiento 2015 – 2018 · founded and led a coalition that helped 100+ small-business owners displaced by the 2015 Venezuelan crisis re-establish in Colombia; the group rebuilt together, and that work seeded my own reinvention — under significant personal and professional risk

Board Member — Cámara Industria Venezolana Automotriz 2008 – 2015

Member — Club Rotario 1987 – 2016

Three careers, one through-line: build systems, lead people, and verify with evidence.
